

ANTIDIVA
CONTRACT SOLUTIONS

TECNOVOX®
HOSPITALITY ELECTRONICS

A N T I D I V A

Antidiva offers a suburb range seating solutions that work in a diverse number of retail, commercial and domestic settings, plus a bespoke service for interior designers.

Antidiva has a strong design lineage, stemming from Cuciflex, a design house with over 40 years of experience linked to brands such as B&B, Flexform, Poliform, Baleri, Vitra Classicon, Giorgetti and many other. By combining high quality products and the inspiration of young designers, Antidiva creates functional fun furnishings that offer perfect seating solutions for a range of situations. Flexible, sectionable and adaptable describe the pieces featured in the current catalogue. From ultra modern through to simple profiles, the sofas and armchairs reflect the company's belief in modern seating .

Fixed feet, swivel bases or self locking casters are available on armchairs, and most covers are completely removable, offering both easy maintenance and the ability to cost-effectively refresh a look.

As stand alone pieces - or grouped together to create a visually exciting installations many pieces are available in a choice finishing and fillings, and unusual sizes can be custom created. From hotel lobbies and restaurants, to airport lounges, office receptions and living rooms worldwide, the Antidiva range offers seats with style and purpose.

EXCITE YOURSELF WITH SoundBed, ROCKING AND ROLLING INSIDE AN INVISIBLE SOUND

TECNOVOX is a dynamic company with extensive experience, oriented toward continual technical development. Since 1979, TECNOVOX is leader in hotel electronics and conference equipment, having performed hundreds of installations worldwide. In 2003, the company acquired ownership of the prestigious VIDEOVOX trademark. The merging with this industrial partner has got over 30 years of experience and advanced hotel solutions.

These skills and experiences, coupled with continuous technical research & production pushes Tecnovox in the leading position.

Tecnovox system portfolio is going toward the pleasure & luxury for a full total comfort. From Hotel safety reception, hall and room comfort, to the room and bed services. Integrating finest technology to the hotel common facilities and furniture. Techotel TH3 is the system for Room Management that controls SoundBed, concentrates room information, lights, air-condition and service functions together, to save energy, improve service and safe guard levels. It masters the room information, such as the guests id, the door & window status, the climate of rooms, the position of the staff, check of maintenance process. The system is intelligent, it uses scientific management ideas and advanced management methods to help the hotel employees and administration to be more dynamic and efficient.
